

# Passenger Transportation – MSc course

Course requirements 2018/2019 spring semester

Subject Code:	BMEKOKUM208	
Lectures(/week):	2 hours lectures and 2 hours practice	
Credit Points:	5	
Evaluation:	examination	
Lecturer:	Csaba Csiszár PhD	associate professor
Seminars:	Bálint Csonka	professor assistant
	Dávid Földes	professor assistant

Attendance on classes:

According to the TVSz (study-code)

Mid-terms:

- Mid-terms:  
First: 13.03.2019 10:15 in room St. 428; retake 15.05.2019 10:15 in room St. 428  
Second: 08.05.2019 10:15 in room St. 428; retake 16.05.2019 12:15 in room St. 429  
scope: learning material discussed on the previous weeks

Up to ONE mid-term can be retaken in the supplementary week.

- Assignments:
  1. assignment – submission deadline of word document and powerpoint file: 18.04.2019  
(the presentation is possible, if the powerpoint file is submitted before deadline)
  2. assignment – submission deadline: 11.04.2019
  3. assignment – submission deadline: 11.04.2019
  4. assignment – submission deadline: 02.05.2019

Presentation of 1. assignment: in practice time (12. and 13. weeks); exact time will be announced during the classes.

Evaluation:

Mid-terms:	max. 25 points per mid-term
1. assignment:	max. 10 points
1. assignment - presentation:	max. 10 points
2. assignment:	max. 10 points
3. assignment:	max. 10 points
4. assignment:	max. 10 points

The mid-semester 'signature' (acknowledgement of fulfilment) is obtained if all midterms are passed and the assignments are submitted and accepted. Extra fee according to TVSz (study-code) is required in case of each late submission or retake of mid-term in the supplementary week.

The final mark may be proposed/offered. Some possible aspects, which may be considered: points, submission of home assignment before deadline (and acceptance), midterms are passed without retake, cooperative attendance in the lectures. Registration for an exam in NEPTUN system is always required.

The way of examination is oral. Scores received on the exam (max 50 points) replace the scores of the mid-terms. Final grade: based on the total score (max 100 points).

A prestigious guest lecturer with wide research experiences gives a high-level presentation during the semester. The date and venue will be announced during the classes. Active attendance on this presentation is honoured by 10 points.

Budapest, February 2019

Csaba Csiszár PhD  
associate professor
